

Product Information Sheet

JUMPER AND TRANSITION TRAYS

The CPI Jumper and Transition Trays aid in compliance with ANSI/TIA/EIA-568B bend radius requirements. Two styles are available to provide upper and lower horizontal/vertical cable management and promote a gradual, controlled bend for both UTP and optical fiber cable. Slotted holes allow bend radius location to be user adjustable. Attachment of optional transition plate creates a solid wireway between racks. Mounting screws not included. Sold individually

- Provides 1 1/2" bend radius for compliant installation of Category 5/5e/6 or fiber cable
- Telescopes to adjust cable entry or exit position
- Mounts on 19" or 23" rack. May also be wall mounted
- Strong lightweight aluminum construction

Upper Tray			
Part Number		Color	Shipping Weight
19"	23"		
12183-119	12183-123	Gray	3 lb
12183-219	12183-223	White	3 lb
