Rack Security Products

Patch Panel Protectors,
Server Boots and Doors

CDRSP-12
Introduction

At Cooper B-Line, we know that it’s critical to protect your equipment and network. That’s why our new line of security products is designed to be an effective and easy to implement solution for physical layer security for IT applications in finance, healthcare, government, institutional and retail marketing.

To help reduce your cost while maintaining security, consider Cooper B-Line Rack Security Doors, Patch Panel Protectors and Server Boots for your next data center project.

- **Security:** Hardware attaches inside the enclosure and is not accessible when door is locked.
- **Easy Access Control:** Access requires only the key, eliminating the need for special equipment or passwords and access codes.
- **Visibility:** Mesh doors provide equipment visibility.
- **Retrofit:** These products can be installed on racks and cabinets with existing equipment.
- **Bend Radius Protection:** Patch Panel Protectors come with special drop outs to protect cable bend radius.
