The BLUEVIEW
Access Control Software

By using open standards Wi-Fi and Ethernet networks, BlueWave allows the system to be managed and monitored using IT network tools from any vendor.

BlueView Professional access control software is used to configure, administer and monitor NetGen door controllers and Wi-Fi enabled, battery-powered locks.

System Requirements *(Express and Professional Editions *)*
- Microsoft Windows XP SP3 or Higher
- − 64-bit support on Microsoft Windows 7 or Higher
- Microsoft SQL Server 2005 or Higher (Express or Standard)
- Minimum RAM: 2GB or greater
- Hard Disk: Minimum of 500MB for BlueView database (database will grow with usage)

* Enterprise-level installations may require significantly greater resources. Please contact BlueWave Security for more information.
