**Accu-Tech**  
We're Known by the Companies We Keep

- ▶ Do you feel that your organization has met the requirements of a proper grounded and bonded network system? We have done inspections, and only 90% of those installations met the current ANSI/TIA-607B specification. We will be conducting a class to explain the new standard so that you are aware of what is required.

If you think you know Grounding & Bonding, go to:

<http://www.proprofs.com/quiz-school/story.php?title=grounding-bonding>

Take the test

Can you say that you offer, Install or have a standards compli-

## We want to see you at the event!

Please RSVP to your Accu-Tech Inside Account Manager to secure your seat.
