ViewZ is a trusted brand of professional-grade surveillance solutions. Our display monitors, cameras and digital video recorders are used around the world in mission-critical 24/7/365 installations such as casino, government, retail and military facilities. ViewZ products are designed and built "in-house" at our global headquarters in South Korea and supported by the Americas division headquartered in Anaheim, California.

ViewZ consists of over 100 display monitors ranging from a 3.5" service monitor up to over 300" video walls. We offer the latest LED backlighting, touch, rack-mount, narrow bezel and the industries' only 2 Mega Pixel IP Public View Monitor series. Our aggressively priced HD-SDI camera lines delivers 1080p / 30fps over coax and our H.264 HD-SDI DVR's capture and playback 1080p video at very affordable prices.

Originally marketed in North America under the brand name "Orion", ViewZ was launched in 2010 to offer rugged, reliable and high performance surveillance products direct from our factory to the North American market.

In addition to our ViewZ brand, we also excel as an original equipment manufacturer (OEM) to several of the industries' highest regarded global surveillance brands. All ViewZ surveillance monitors are backed by our 3-year factory warranty and our cameras and DVR's have a 2-year warranty. Furthermore, all ViewZ surveillance products come with our zero-cost advanced replacement policy and free live pre and post sales technical support by our team located in Anaheim, California.
