

Power protect at home

HOME OFFICE ...
SO PEACEFUL ...
SO ZEN!

Eaton solutions for home offices

Protect valuable investments in home office systems against power failures, surges and other power problems.

Eaton 3S UPS

Eaton 5S UPS

Eaton Eclipse surge protectors

Power protection is needed to prevent damage including data loss, file corruption, flickering lights, hardware damage, and equipment shut off/lock up.

For small office or home office requirements, including PCs and peripherals, Eaton UPS products can:

- **Prevent power surges and sags** from affecting PC and peripheral equipment with enough battery backup for PC to ride through most power outages
- **Regulate power fluctuations** and protect PCs, workstations, small servers, hubs and routers
